areas. As a follow up to this, a National Presentation on Rural Business Hubs with the theme "Economic Empowerment through Panchayats" was held on the 5th November, 2004 at Vigyan Bhawan, New Delhi by the Ministry of Panchayati Raj in collaboration with the Confederation of Indian Industry (CII) in which more than 1000 elected representatives of Panchayati Raj Institutions (PRIs) from States and Union Territories and also about 20 members of the CII participated. Several presentations were made on various economic activities which provide opportunities to set up Rural Business Hubs. As a follow up to the Conference, the Minister of Panchayati Raj has written to all elected Panchayat representatives who attended the presentation to indicate their respective areas of interest in setting up Rural Business Hubs. For wider dissemination, it has also been decided to publish advertisement in prominent newspapers for the purpose. Responses received would become the basis for developing State-wise projects for promotion of Rural Business Hubs through Panchayats.

To this end, Rural Business Hubs Council has been set up, co-chaired by the Minister, Panchayati Raj and Shri Sunil Munjal, former Chairperson of CII, to promote public-private Panchayat partnership to foster Rural Business Hubs.

Nine States *viz.* Uttaranchal, Kerala, Karnataka, Jammu & Kashmir, Punjab, Rajasthan, West Bengal, Uttar Pradesh and Assam have been initially selected as focus States for the purpose of facilitating the establishment of such Rural Business Hubs. Representatives from the Ministry/CII have been assigned the responsibility of taking up the facilitation process in the States concerned for Rural Business Hubs to be established in association with Panchayati Raj Institujtions. Local CII offices in the States concerned would be actively involved in the facilitation at the State level. Models such as the Chinese Town and Village Enterprises and the Thailand Model of "One Thamboh, One Product" (OTOP) could be used as initial examples for developing State-specific models.
